Facilities:

MILCON project scheduled for 2002 will have serious impact on operation in the Area 100 and 400.

Constraints:

DRMO Kaiserslautern occupies land that is divided by a significant hill and forested land. The storage

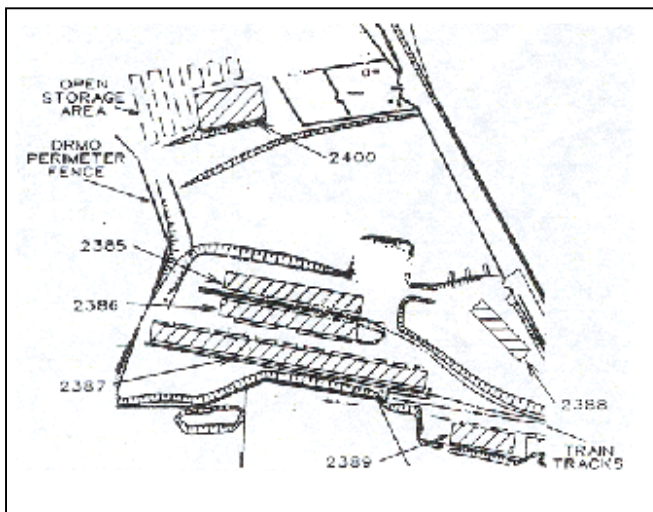

DRMO Kaiserslautern, building 2385

locations are pockets of cleared land scattered throughout the compound. The storage locations are not adjacent but separated by hills and woodlands. Most is unimproved resulting in a quagmire in the winter and wet spring and fall. The DRMO receives property at 5 different sites within the compound – Area 100, Area 400, Demil, Downgrade facility, and the retail store as well as a receiving site across a major roadway. The DRMO is located between two water protection zones. The DRMO is in a Flood Zone, Water Protection Zone, and Forest Protection Zone. All personnel must pass through a gate guard to enter the DRMO.
